DREAMING CIRCLE

duration: 5 - 10 min

Inclusive and organized way to create a common dream.

A dreaming circle can be used to connect personal intentions into a shared dream of the whole group. The dreaming circle does not compromise and intend to make all dreams come 100% true.

Once the group has a indefinite idea of what do they want to achieve together it is time to ask a generative question:

»What would enable you to say – yes! I am so pleased I worked on this project!?«

And now everyone presents answers to the question, in turn, perhaps using a talking piece. If someone has nothing to add they can pass. Do 2 rounds of answers. The gamekeeper captures all the answers.

Read the answers in the way as if it has already happened.

CREATIVE BRAINSTORMING

duration: 5 - 10 min

Come out with as many as possible ideas about a certain topic, explore the unknown!

When we think about something or a new idea we can use this tool to open up our mind and think in a very broad way: open up to possibilities, go crazy and then see the results. Some will be useless, but there may be a great idea coming out of the impossible.

As with any brainstorming exercise, there is no judgment on ideas, not much thinking, just write as fast as possible anything that comes to your mind.

1. Divide into groups of three or pairs (depends on the number of players) and write as many ideas as possible referring to the intention of a group. Each group writes on an A4 paper all participants at the same time, filling the empty space. It has to be very fast. Don't judge the ideas. Stop after 3 minutes.
2. Look at the ideas and score for the best ideas. Give three points in red for interesting and impossible ideas and 3 in blue for interesting and achievable ideas. You can give all three points to one idea or distribute them as you wish.
3. See the results! Which ideas got the best scores? Has anything interesting come out?
